Who We Are

The **Ontario Community Support Association (OCSA)** champions a strong, sustainable home and community support sector for all Ontarians.

Across the province each year, over one million people receive home care and community support services – and the need is growing. We represent nearly 300 not-for-profit organizations and work with our members to ensure that sector issues are heard and addressed by government policy makers, other health organizations, the media and the general public.

OCSA also creates partnerships, facilitates knowledge sharing, and offers training, resources and benefits, providing vital services to people of all ages in particular those with disabilities and the senior population.
